Debraj-Das

Portfolio

Education

Jadavpur University, Kolkata

2024 – 2028

Bachelor of Engineering in Construction Engineering (CGPA: 7.8)

WWA COSSIPORE, Kolkata

2024 Class 12 (ISC)

Higher Secondary

ST.XAVIER'S INSTITUTION, Kolkata

2022 Class 10 (ICSE)

Secondary

Technical Skills and frameworks

Programming Languages: C++, Python

Other Languages: JavaScript, HTML, CSS, Tailwind CSS

Frameworks: ReactJs, React native, ExpressJs

CS Fundamentals: DBMS(Basics), SQL

Other Developer Tools: VS-Code

Projects

Full-Stack Algorithm Visualizer(Vanilla Javascript, NodeJS, ExpressJS) | Github | Website

- Developed an interactive platform visualizing 12 algorithms across sorting, searching, and pathfinding, including BFS, DFS, Dijkstra and A*.
- Built REST APIs with Node.js and Express.js to execute algorithms and generate step-by-step execution traces in JSON.
- Created a Vanilla JavaScript frontend with animated visualizations, playback controls, statistics, and synchronized pseudocode highlighting.
- Implemented run-history persistence, input validation, error handling, CORS, and execution-time tracking.

Multi-Model Classifier (Python, Scikit-learn) | Github link

- Conducted a comprehensive comparative analysis of multiple machine learning algorithms, including Support Vector Machines, K-Nearest Neighbors, Decision Trees, Logistic Regression, and Boosting, to identify the most suitable model for the given classification task.
- Leveraged Python's Scikit-learn library to efficiently train, evaluate, and fine-tune machine learning models, optimizing performance and computational efficiency.
- Employed data visualization techniques to gain actionable insights into model behavior, identify patterns, and inform decision-making for model improvement.

Rock Paper Scissors Game (React Native) | Github link

- Developed a cross-platform mobile game using React Native, incorporating a user-centric design philosophy to deliver a captivating and engaging gameplay experience. The game features a dynamic main menu with 3 interactive buttons and corresponding high-resolution images, providing players with clear and intuitive navigation options.
- Implemented a robust responsive UI framework to optimize gameplay across various screen sizes and devices, ensuring seamless user interaction and visual consistency.
- Enhanced player engagement by strategically integrating visually stunning graphics and smooth animations, elevating the overall gaming experience and creating a memorable and immersive atmosphere.

Achievements

- Achieved an All India Rank of 2368 in West Bengal Joint Entrance Examination (WBJEE), among 120,000 candidates.
- Reached the highest rating of 1350(1-star) on CodeChef.
- Reached the specialist on Codeforces (1421 rated).
- Solved over 500 problems on diverse coding platforms
